

Legal Advice for Holistic Health Care Providers

DDO Health Law has developed expertise dealing with holistic health care providers. If you operate a wellness centre, integrated health clinic or have a business providing complementary or alternative therapies such as naturopathy, acupuncture, Traditional Chinese Medicine, chiropractic services, homeopathy, reflexology, massage therapy, or Reiki, we can help you navigate issues such as:

- Privacy and recordkeeping
- Consent to treatment/therapy
- Disclaimers/waivers
- Disruptive clients
- Creating the right business structure (such as: tips for when to incorporate; the implications of having business “partners”; drafting contracts for people renting office space)
- Employment and human resources dilemmas

We understand that the values of cooperation, equality, respect, and dignity guide decision making in the holistic health sector and we reflect those values in our approach. Our clients tell us our legal advice is practical, cost-effective and scaled to their level. We understand how to work with small offices so you are not implementing policies that only make sense for big business.

We would welcome the opportunity to put this expertise to work for you. Since we have already worked with organizations similar to yours, you will find our packages and rates to be extremely competitive.

Please contact Kate Dewhirst at (416) 967-7100 x226, or by email at kd@ddohealthlaw.com to discuss the ways we can assist you.
